Aldermen Believe in Publicity.
The aldermen were not so reticent, taking the position that the public mind should be set at rest by knowing the actual facts. Knowing the repute of Thomas Donovan and William Webster as first-class workmen, they put a great deal of trust in their statements as to the ultimate staunchness

ing should be applied, but he had been turned in without that necessary work being undertaken. There are numerous sun-cracks in the concrete, he said, due to its not having been covered from the sun after laying. These are especially noticeable in the north wall, which, of courses, got the greatest baking on account of its southern exposure. Despite these statements, the state of the prosecution, profess not to be worked. There is one of the twenty-foot-square panels in the bottom which is not as good as the rest, the only reason Mr. Donovan can think of for that being that there may be some fault in the foundation layer. This is at a point where teams went up and down. Only yesterday, Mr. Donovan said, he had discovered that five of the asphaltum plugs which are put in between the panels to keep the seams tight were defectively.

Mr. Webster assured the aidermenthat the walls were well made, save for sun cracks, and Mr. Donovan vouched for the floor, with the exceptions he mentioned. The latter stated that there was an inch more of concrete on the bottom than was called for—six inches instead of flye inches, or at the least three inches. There were also fifteen tons more asphaltum used than the specifications called for were also lifteen tons more asphaltum used than the specifications called for. There was a hurry-up conference of the city fathers iast night, but not a hint was given to the press of its coming off. Of course the press got on to the fact of the meeting all the same, so that the veil of secrecy which it was sought to draw over it not only failed to hide the fact but is calculated have the effect of creating unjust suspicions in the public mind.

Olympia, Wash., Aug. 11.-A large number of legislators arrived in the capital on the noon train to-day for the impeachment trial of State Insurwhich opens in the Senate chamber at 2 o'clock this afternoon.

The claim that the necessary votes have been pledged to have the demurrer of the defence sustained by the Senate, was the subject of interested discussion by the newly arrived members of the legislature. According to reports which were in circulation be-fore the convening of the Senate, the Schively case is likely to be disposed

Mr. Donovan, the Times is informed, told the aldermen that with a coat of cement all over the reservoir would be satisfactory. He reminded them that he has always insisted that this coating should be applied, but he had been over-ruled, and the water had been over-ruled, and the water had been over-ruled in without that necessary work being undertaken. There are numerous sun-cracks in the concrete.

Fall Out During Annual Parade Grand Army of the Republic,

Salt Lake City, Utah. Aug. 11.—More than fifty children fainted from heat and excitement in the great annual G. A. R. parade here to-day. The little girls and boys had formed a living flag in the parade, wearing clothes of red, white and blue and forming the stars and stripes. The heat was too much for them and scores fell to the street. The long march proved too much for many of the gray-haired wearers of the blue who were overcome with fatigue and heat. Prettily Decorated Tables Have Been Arranged for Competition.

The interior of the drill hall presented a very busy scene this forenoon when exhibitors and managers were etting things in shape for the formal ening of the annual flower show the Victoria Horticultural Society,

which took place at 3 o'clock this af-ternoon, when Premier McBride de-livered the opening address.

The exhibit is an exceptionally fine one, and should be visited by all lovers Mrs. Croft and Mrs. F. S. Barnard

The showing of sweetpeas is a precial feature of the exhibit. Never have so many lovely tints been seen before, and the blossoms, especially in the new crinkley varieties, are extremely large. Roses, too, of many varieties are to be found, likewise nasturtiums, poppies, shasta daisies and many other old favorites.

Great interest has been shown in the decorated tables, and they in themselves would well repay a visit.

Mrs. R. B. MeMicking's is among the prettiest, although there is really very little choice. She has massed Shasta daisies and guseophila and pink tule most effectively. Miss Allan's is very effective with "green fardiatere filled with Dorothy Perkins roses, amongst which shows the deeper pink of the Himselya. A unique finish is given this table by a large green slipper at either corner filled with the same flowers, and pink candelabra give,a daisity finish.

Mrs. Talbot's arrangement of pale yellow chrysanthenums and ferns with trails
of angulax is much admired, and deservedly so.

Miss Work's clever arrangement of scarfet geum with gypsophila is very effective, and Mrs. Shallcross' beautiful Richmond and John Laing roses are the only decorations of their kind. Miss Angus has screened herself off with garlands of ivy, and from dainty tables decorated in pink and green is dispensing tea. months to meet Johnson and select the
club before which the fight will be held.

Berger arrived in Chicago this morning. He found Johnson and Lyttle waiting for him and they immediately went into conference. The meting was a brief but stormy one, the lie being passed a number of times.

Berger wanted Jeffries referred to in the articles as "champion of the world." Johnson indignantly refused to grant this concession, claiming that he had turned the title over to Tommy "That's a lie," shouted Berger,

Spokane, Aug 11.-The Spokane Press yesterday, the second day of the National Irrigation Congress, published the following special from Helena,

There is proof at hand that one of the first official acts of President Taft's secretary of the interior, Richard A. Chillies Ballinger, was knowingly to turn over to the water power monopoly millions of dollars worth of power sites along Montana rivers.

the nation, and most important of all, this wonderful new power will pump endless floods of water upon millions of acres of arid lands, and so make new homes for millions of Americans. But the water power trust will be in a position to tax tribute from every settler and from his children forever.

It was in the closing days of his administration that President Roosevelt learned of the wholesale seizing of the water powers by the then forming trust. The grab was at its height. The president sent surveyors and experts from half a dozen government bursaue into the field to find out what was going on. The first and unanimous report was that the woods and hills were full of the engineers and surveyors of the trust and that the trust had better maps of public lands than the government had.

So Roosevelt had Secretary Garfield end the grab by resuming government control of public lands containing power sites.

THE TRAMWAY AGREEMENT,

Our correspondent, "Taxpayer," says tered into between the city council and the British Columbia Electric Railway Company, He cites several which are trivial and not worthy of an individual whose views upon question of great public importance are usually broad, intelligent, discriminating and free from prejudice.

The principal reason, "Taxpayer" tells us, why he will vote against the agreement is because it precludes the city from selling power in the event of its acquiring the works of the Esquimalt Water Works Company or any other source of water supply at which power can be generated. If such were the case the Times would oppose the priation of the property of the Esquimalt Water Works Company chiefly because if that by-law be carried the city will have a largely increased revenue from the sale of water

ion of our contributor:

water shed and have surplus water for power purposes to dispose of, the Compower purposes to dispose of, the Com-lany, if required by the Corporation, shall purchase such surfaus water de-livered through the pipes of the Cor-

In the matter of lighting the tram pon a footing similar to the footing it has in Vancouver. If these condilighting and of power for manufacturing purposes in Victoria will be reduced to a basis equal to the rates in Vancouver, The company furtherre covenants to supply light for the streets at half the present cost of furishing such light by the city itself. Here are two very substantial concesobligation to give, and which it probe rejected by the ratepayers. But these concessions we do not con

sider of chief importance by any means, The people of Victoria are afflicted with one weakness common to all mankind. They are anxious to see their city grow portance. This is a weakness which in the abstract may be condemned Probably it will be condemned by "Taxpayer," who is of a philosophical turn of mind. He may ask what benefits are gained by individuals say the sum of human happiness and of human comfort was greater when this city was of half its present proportions. That may be quite true. But we do not care to dogmatize upon it. And, in any event, the desire to grow and progress is inherent in the human family. It is a characteristic which annot be eradicated by philosophic easoning or abstruse argument. It is just as natural as the longing of the boy for the alleged dignity of manhood, a condition which brings responsibil ty and trouble in its train. Victoria wants to grow, therefore, and one of the fundamental conditions of growth is quick and cheap means of business connection with all neighboring com-munities. The best of modern transtric traction. If the British Columbia Electric Railway Company generates ten thousand horse power at Jordan River besides using whatever power is available at Goldstream it must apply that power to some remunerative en terprise. We believe it will extend its tramway system throughout a large part of the island of Vancouver.

We give up nothing tangible in accepting the tramway agreement, and we stand to gain a great deal. None but a very shortsighted or very dour ratepayer will vote against it. being in such company.

Why I recall this legend is because of the would-be enlivening presence of two juvenite holding youths in the advertising business, who seem to be impressed that they have a special mission for the salvation of Victoria business. We infer from the remarks of Dr. Helen MacMurchy of Toronto before the nurses of the Jubilee Hospital that the Sajrey Gamps and the Betay Prigs have been banished from the sick chambers of the country. None of the nurses of the country. None of the nurses of the present day insist upon a bottle being left upon the mantle shelf where it may be conveniently available "if so dispoged." The work of the modern nurse for the relief of afflicted humanity is indeed worthy of the high eulogiums pronounced upon it by the gentle visitor.

CEMETERIES

To the Editor:—The purchase of 20 agrees additional cemetery on the water front should not commend itself to the fatepayers. The present one is certainly a great blemish to the beautiful beach drive. Why should Ross Bay district have to do all the burying without compensation?

Oak Bay should have a cemetery for their dead on their beach drive, and so should Esquimalt district and south Sagnich.

PROGRESS.

To the Editor:—It is gratifying to note that in connection with the proposed C. P. R. tourist hotel the question of Lake is being taken up by the press. question before this society, and I now ask that some action be taken to fiduce on? representatives to take it up in earnest with the view of re-acquiring the rights which have been allenated and acting apart a suitable tract as a national park for all time for the use of the public. I allude to the particular area in question, not only on account of its natural beauty, but for the reason that it is easily reached by a good wagon road both from the east and west coasts, and therefore peculiarly well situated for the purpose.

When the Canadian Pacific Railway acquired the right of the E. & N. Railwoy on the Island, I 'urged upon them the desirability of setting apart a ten-mile square of land wibracing Mt. Arrowsmith. Cameron, lake and the adjacent forests. In spite, however, of all representations the sipheness of the authorities was such that nothing has been done. Let me hope that now the question has been taken up by the press it will not be allowed to rest until something practical is accomplished, and that the newly appointed forestry commission will take up this and all other practical questions relating to forestry in a manner befitting such important-interests.

J. R. ANDERSON.

J. R. ANDERSON. Victoria, B. C., 10th August, 1909. AN IRRECONCILABLE.

To the Editor: Our city fathers have been gravely deliberating over the pros and cons of that B. C. Electric Com-pany's agreement for some fifteen and cons of that B. C. Electric Company's agreement for some fifteen months, more or less; they now propose to give the people fifteen days to think over it before voting upon it. This shows that our city fathers have a high appreciation of the people's intelligence, as they evidently expect the people to decide in fifteen days regarding a matter over which they themselves have deliberated for fifteen months. It may be just possible, however, that they look at it in another way, viz., that they have so high isble, however, that they look at it in another way, viz., that they have so high an appreciation of their own intelligence that they regard any agreement which meets with their approval as so near perfection that it is not necessary for the people to give any thought to it at all. That idea might be accepted by the people and acted uppn, that is, we might all be willing to accept as safe any business agreement which met with the approval of the council, if it were not for those other agreements of which these gentlemen so heartily approved. There was that agreement with the Country Club regarding the sixty days' racing, which the council so heartily endorsed and patronized by their presence on opening day, and which we were assured in certain

We all know, of course, what is said in reply to all this—that its franchise was given in early days when it was regarded as being of little value; they took chances in what was practically a gamble and they won. Well, yes, they won. If they had lost we would have expected nothing from them. But the fact that they did win, that they got a franchise which today is very valuable, for little or nothing, is a very good reason why we should expect even more liberal treatment from

MAY RACE HERE ANOTHER WEEK

FAVORITES WINNING AT WILLOWS TRACK

Archibald Rides Five in the Money and Leads Cup Competition.

The same close finishes and goo sportsmanship that have characterize the Willows meeting all through was evident again yesterday and horsemen are so enthusiastic with the Capital city, despite its half, mile track, that they have made a movement to have the races continued another week. Whether this will be done is not decided yet, but as one of the reasons given why it should is that the Minoru accommodation is limited and will not be ready for at least two weeks, it is probable the horsemen will interview the officials to-day with this pian before them. Several horsemen returning from Vancouver say stabling is short over at Minoru, and that things are not yet ready. Last night it was fixured evident again yesterday and horsemen over at Minord, and that this a faured that another week here would give the Vancouver people time to get their accommodation completed, and it is said the extra week's racing at the Willows is more than probable

Yesterday's card again marked a majority of favorites for winners with Beaver Dam Lad, Novgorod, My Bouquet and Traffic the short priced ones. Sir Angus was the over-looked horse catching the judge's eye first in the one and a sixteenth miles, and going to the post at 18 to 1. Irwa Lee repeated. the post at 15 to 1. Irma Lee repeated, being the other winner at threes,

An accident to Lycurgus and the fin-ing of Archibald were the two inci-dents that disconnected backers' calcufients that disconnected backers calculations. Lycurgus got his foot badly jammed in the third race riding Lady Elizabeth, and was unable to dismount. He tode the two year old to the office where Dr McMicking attended to the lujury. He will probably ride to-day bjury. He will probably ride to-day again. Riding Beaver Dam Lad in the five furionss, Archibald cut off David Boland at the tank turn and was fined 150 by the stewards. N. B. McAbee, 150 by the stewards. N. Stowe bid for Novgorod after the second race, but the owner out-bid him.

The best finish at the Willows yes. The best finish at the Willows yes. Sir Angus, Leeds (109) 8 10

for Novgored after the second race, but the owner out-bid him.

The best finish at the Willows yesterday was Archibald's ride on My Bouquet, btating Col. Bronston and Santee with a neck covering the three borses. Apparently out of the money as the horse came into the straight, Archibald litted his mount along and brought him a nose in front at a terrific pace on the post. Traffic was saaily the best in the last race and won starly, although DeGrammont chalenged him. Lady Quality was in the sponey a langth behind. Irma Lee's rictor was easy, having led several ergths all the way, the mare finished

WHAT BECAME OF FAREWELL RACE PHOTO TYLER AT SEATTLE

Victoria Player Will Meet Rus- Deceptive Angle Theory May sell in Final Game To-day.

(Times Leased Wire.)

Seattle, Wash., Aug. 11.—The hitherto invincible Joe Tyler, of Spokane, was eliminated yesterday in the semifinals of the international singles by B. P. Schwengers, of Victoria, 6-3, 1-5, 6-2. Tyler's defeat came as a surprise to many who have seen both men in action, as the former Scattle crack had defeated Schwengers in the recent tournament at Victoria.

Tyler played well back of the net during most of the game, and did not carry the game to the Victorian, Had be been willing to exchange volley for volley with Schwengers matters might have been different. The latter's tennis ability cannot be underestimated, however, and he and Russell of Seattle, who survived for the finals by defeating Rohr, of Portland, will furnish an exciting exhibition this afternoon.

Tyler's driving and shillty to reach almost impossible chances and return them over the net were his strong points, while Schwengers outdid himself in steadiness and as a good getter.

Goss and Wickersham, of the Multnomah club, defeated Thompson and Armstrong of Tacoma, in the semifinals of the mixed doubles, after the latter pair had won the first set.

Thompson and Armstrong were content to lob the bail in the early part of the same while the Portland pair of the game while the Portland p

Another change which is taking place in the same neighborhood is the retirement of Fred Carne from business.

Mr. Carne has been in business in Victoria for the past forty years. For two years he worked for David Spencer, and since that time he has been in the grocery business in Victoria. He has made a fine record in the business, and is proud of the fact that ever since he started for himself he has been able to hold his customers. Fourteen families who commenced dealing with him at first are still doing business with at first are still doing business

to extend their trade by taking this fine stand next the C. P. R. ticket office. For some time they have been looking for a suitable location.

Fred Carne, although giving up the grocery business, will not give up altogether. He will probably open at the beginning of the year in the commission business, and being so well known here will doubtless do well. The shops now occupied by Fred Foster and Bownas' Hardware business will have to be empty by the end of this month, when the work of pulling down will commence at once and the new building for the Royal Bank of Canada be erected.

No fewer than nine business houses, as well as numerous occupants of offices are being affected by these changes, which go into effect almost immediately. They indicate the change which is fast coming over Victoria, and the eagerness with which the positions along the leading business street are being taken up.

A. Marc, of this city, has just returned from Nanaimo where he found the right spot outside the harbor for catching the salmon. He landed fifteen about two miles outside of the whaling station, some or which were conces and the others spring salmon. It was splendid sport, according to Mr. Marc. The spring salmon whee hooked usually dived right to the bottom, or in that direction, and put up a good fight. The cohoes on the other hand usually swam towards the fisherman and there was not much of a struggle.

Neighborhood of \$60,000.

Steamer Puritan is to be repaired at way Compny. The contract is a large one and will occupy early this morning and work has already commenced.

The Puritan was surveyed by T. G. Mitchell, Lloyd's surveyor for this port and Vancouver: the owner, Mr. Constantine, being also present. It was found that several new plates would have to be renewed and a number taken off and straightened, Other work, such as the straightening of the frames, doors and tanks, will also need attending to. The contract price is said to be in the neighborhood of \$15,000.

The only two vessels at present at the B. C. Marine Railway Company's yards are the Puritan and H. M. S. Shearwater, the latter of which has been there for several months past, and will probably not leave until the end of the month. Mitchell, Lloyd's surveyor for this port

During the last couple of weeks her engines have been receiving attention. They have practically been taken to pieces, cleaned, readjusted and thoroughly overhauled. The work of putting them in place again has been almost completed, and it is expected that she will be ready to leave port about Eriday.

Her efficiency has been considerably increased by the overhauling, and when she gets out on the sand bars again she will be in a position to-do great work.

The charge was brought by the police, and formal evidence was given by
Constable Duncan that the defendant
had been on the stand with a tally had
more than a half hour before the arrival of the Princess Victoria one day last week. The by-law provides that no rig shall occupy the stand more than an half before the arrival of dence that the boat was generally du at 1 o'clock, but was not certain as to

Mr. Tait, for the defence, held that Mr. Tait, for the defence, held that the by-law was bad, as it did not specify the time of the boat's arrival. The boats arrived at various times, and the C.P.R. boats were not the only ones that came in near the Believille stand. There were passenger boats of all kinds, he said. He also mentioned that if a boat came in ahead of time the by-law would defeat the men engaged in the business of caring for the traffic. The case of what a driver should do if waiting for a boat overdue and eventually never arriving through being wrecked was suggested. Mr. Tait also held the by-law did not specify for a half-hour immediately pecify for a half-hour immediately specify for a half-hour immediately before the arrival of the hoat. The magistrate said the by-law was drawn in 1905, when there was perhaps but one boat docking there per day. The circumstances had now altered, and he thought it would be well to have the by-law remoddled. The difficulty was the driver could not to a half-hour ascertain the time of arrival of the boat. Mr. Tait said the driver could not do this nor could the city officials inform him of it if applied to.

OVERSEAS BY BALLOON.

Shall we go to Europe by balloon?
Yes, say the Wrights, the most daring and successful navigators of the air which the world has yet produced.
Yes, says H. Helm Clayton, America's most distinguished meteorologist, who has for sixteen years made a careful study of upper air currents. Not only may we go, taking advantage of what has become known to meteorologists as "the great highway of the air," but we may we go, taking advantage of what has become known to meteorologists as "the great highway of the air," but we may return, for this highway is not a one way route but issues return tickets to all who will study its schedules and take advantage of them with the proper equipment. The rails of this vast circuit road of the upper air are laid, so to speak, even the motive power is provided; the knowledge of the schedules has been turnished us by Professor Clayton and other careful scientific observers; the only remaining need is the safe and sure equipment for reaching this upper air current and staying in it until the desired point is reached, the men daring enough to trust their lives to the first voyage and thus point the way to thousands of eager followers.

SUCCESSFUL YEAR

AT BAPTIST COLLEGE

Plans Being Prepared for Residence for Young Women at Summerland.

The past year has been a good one The past year has one of the history of the Okanagan college, ays the Summerland Review. In point of attendance there has been a gratifying increase in the enrolment. The fying increase in the enrelment. The This in itself would be encouraging this in itself would be encouraged but when we couple with this the growth in the earning capacity of the institution there is reason for profound satisfaction.

The returns from the student body that the enrolled the student body

The returns from the student body during 1908-1909 show that the enrolment rose from 72 in 1907-8, to 100 in 1908-9; the income from the students mounted from about \$4.000 to a triffe under \$12,000. During the first year named the deficit was about \$10,000; during the year just closed the institution has nearly paid expenses, running behind only a few hundred dollars. Afull school demands little more in the way of expense than one half-filled

way of expense than one half-filled calls for. Another year ought to put the college well on its feet.

The principal during his recent visit to the coast, found a gratifying increase in the interest taken in the college.

crease in the interest taken in the col-lege and its work.

At the convention in Victoria, the principal presented the facts of the case and urged the claims of the young women for a residence in connection with the college. The members of the convention gave their hearty and unanimous approval of the proposal of the educational based to proceed at unanimous approval of the proposal of the educational board to proceed at once to erect a ladies' residence at a cost approximating \$15,000. In line with this vote of the convention, plans are already formulated and in process of development by which it is hoped that a suitable building may be in readiness for use after the Christmas

readiness for use after the Carisanachholidays.

The number of students from the coast is likely to be considerably augmented when college reopens. The demand for accommodation for girls is

specially noticeable.

The board has authorized the faculty The board has authorized the lacuity to advance the college another year and accordingly provision will be made during 1909-10 to take up regular work of the sophomore year. Already there are several who are expecting to enter this class,

PARLIAMENT OF THE PRESS. Lord Rosebery on an Epoch in Empire History.

Under the title of "A Parliament of the Press," the full record of the great Imperial press conference in London is published in a handsome volume (price half-a-crown) by Messrs. Horace Marshall & Son, London, The book deals day by day with the visit of the oversea delegates, and is excellently written and compiled by Thomas H. Hardman.

Lord Rosebery writes a preface in which he says: "Harry Brittain, the consummate deviser and manager of the Imperial press conference, has ask-

Services the consummate deviser and manager of the Imperial press conference, has asked me, as an impartial observer who was present at none of its meetings, to write a few words of introduction to its record. . . "This press conference stands out by itself; it makes a distinct epoch in the history of our Empire. . It summoned to London the men who permanently reflect and influence the opinion of the Commonwealths. These shrewd and vigorous journalits have frankly told us what they had to say; they return to their abpdes with vivid impressions of our national spirit and complicated circumstances.

"To my mind, then, this fertile and original conception promises more for the unity of the Empire than any of the forms of Imperial congregation that have breceded it. PROGRAMME OUT FOR SHAWNIGAN REGATTA

District Team Sends Tug of War Challenge to All Comers.

August 21st is the date of the Shawnigan regatta this year, gatta committee. The list of sports for the day has been drafted and arrangeents made for a special train.

A special will leave the E. & N. dep

ments made for a special train.

A special will leave the E. & N. depot at 1.45 p.m. and return from Shawnigan at 11.30 p.m. The fare has been fixed at \$1.10; children, \$5 cents.

The Shawnigan regatta is the most popular outside event of the year for Victorians, and great strides have been made with it of later years. Last year there were cups for competition and these have been repeated this year. There is a cup for the salling race and also a cup for the motor boat race. Other prizes will be on a lavish scale. The regatta commences early in the afternoon, and is followed at night by dancing in the open air. The affair is always extremely popular and takes a full train from the city.

A feature of the sports this year is the challenge to all comers by the Shawnigan and district tug-of-war team. Particulars can be had from all sporting goods houses. The complete programme as drafted now is: Sailing race for cup; motor boat race for cup; comer singles, ladies' singles; cance race, ladies and gentlemen; four our crews, J. B. A. A.; greasy policione mile swimming race, open, and half mile for boys, 100 yards open and a two-mile Marathon. Also the challenge tug-of-war.

As a rule for the Shawnigan regatta

a two-mile Marathon. Also the chal-lenge tug-of-war.

As a rule for the Shawnigan regatta
the weather is excellent, and the fav-orite pleasure place is generally
thronged with visitors for the day. An
orchestra will attend at night for the
purpose of providing dance music, and
until the return train at 11.30 a most
enjoyable time is spent.

RENOVATING THE HILLSIDE FOUNTAIN

Concrete Curb Laid to Protect it-May Boulevard Streets.

The fountain at the intersection of Douglas and Government streets, which was a gift to the city by some private citizens, but which the council allowed to fall into a most disgraceful state of ill-repair, is once more being placed in commission thanks to the

Humber.
Supt. Warwick's men have been running a concrete curb around the space occupied by the fountain, in order to protect it from wagons, which have smashed a lot of cast-iron work. Inside this will be neatly filled in with cement. The present drinking fountain, which has suffered most from the carelessness of teamsters, will be replaced by one of the new fountains purchased by the city.

PANTAGES THEATRE

The Pantages was filled with people yesterday afternoon to witness the great midsummer vaudeville carnival and the crowds at night tested the ca-

pacity of the theatre.

The trained pony circus by Leon Morris and his beautiful horses, La Belle Helene and her leaping grey-hounds, and John Hedge with the two ponies "Banner" and "Madison," form a combination of animal acts that has no equal in America. The Temple City Quartette, four young men with excellent voices in a happy list of popular selections, have sang themselves into immediate favor in the city and were called back many times. Mr. J. Russell Powell of this organization, Russell Powell of this organization, will be remembered as having appeared in Victoria with the San Francisco Opera Co., and scoring the big hit with the song "I Want What I Want."

The balance of the programme, which includes Jay Paige, a very clever clay modeler; Marjorie Clark, pleasing soprano, and the regular Pantages numbers is good.

NEW GRAND THEATRE,

this week at the New Grand theatre, where four other imported acts are schown also twice nightly and during the afternoon matinee: The Moores present one of the handsomest acts in which Stasia Moore appears in nine remarkable and rich costumes that mus have cost a lot of money. The singing of Tom Moore is worth an act itself but embellished by the feature of the costuming it becomes doubly at-

tractive. ractive.

Anna Merrill, a high soprano with a clear and ringing voice, which she used last night most effectively, gained great applause and won her encores from merit. She is a gifted singer and has a pretty stage presence.

Murphy Whitman and Miss Florence Bates Horsfall in "The Prodical Girl." have an attractive and humgrous lift."

have an attractive and humorous little political sketch dealing with two can-

didates running for election. Their tactics to defeat each other are humorous and the pathos of the story is introduced by Miss Horsfall and the daughter. She is a winning actress and the playlet was well received.

Billy Court, a humorous Scotch ladde in kilts, and then as a Scotch laddie attending school, is another good act at the Grand, and J. Murray and Mrs. Smith in "Is Marriage a Failure?" complete the importations of the week.

(Continued from page 5)

Here in Helena in fact, wherever power sites and grabs are talked n this western country, it is agreed that Tom Carter and Jerry Collins are

There are two opinions about Dick Ballinger: One is that Ballinger has been fooled. Carter is a Republicar Deen Tooled. Carter is a Republican United States senator from Montana. Collins was the United States registrat of lands at Helena under Grover Cleve-land. Now he is the power trusts man. Ballinger was United States land ommissioner under Roosevelt, and in now President Taft's secretary of the

It remains to be shown why Senator Tom Carter did what he did. However, this may be stated positively, the lands have been seized—bodily taken from the public st hours of office has, to this mea

sure, been undone.

Who is responsible? The final answer may come from President Taft.

The Amalgamated Copper Company with power sites secured since Roose with power sites sectors and a basolute pos-session of the Missouri river from Three Forks. In Southwestern Montana, to the Alkali plains, west of Great Falls. This river holds probably the most dialuable water power sites in ion. These, all in the hands tion. These, all in the hands of the trust, give to it complete power to shut trust, give to it complete power to shut, out competition for all time and force every home, farm and factory within an area of 1,000 square miles, to pay tribute to former Senator W. A. Clark, the Guggenheims and their associates. On June 11th last there was filed at the United States land office at Bozeman, Mont., an entry on the 15.868 acres of land-that cinched the monopoly. This entry was made for the United Missour River Power Company, a New Jersey corporation capitalized at 110.250,000. This corporation was promoted by ex-Senator W. A. Clark of Montana and his associate. H. T. Hauser, 16 Wall street, New York, who are the tana and his associate. H. I. the Amalgamated crowd. Together they form the power trust.

But after all there is perhaps only one thing that Helena wonders at. That is why it was that, though Presi-dent Taft warned Ballinger on April 36th, some of the Montana lands were not withdrawn until as late as June 26th, and Collins got what the trust eded on June 11th,

STILL DOUBTS STORY OF DROWNING

Deputy Prosecutor Finds Water Shallow Where Tacoma

Girl Met Death.

tatements on measurements taken on Sunday, Deputy Prosecutor Ralph Woods stated he is convinced Margaret Cuvreau could not have been drowned ear the place indicated by John Flynn in his testimony concerning the tragedy of July 25th. Further, he said, Louis Cuvreau, father of the girl, has eached the same opinion after this

nst investigation. Deputy Prosecutor Woods' trip to Hylebos creek was made in a launch, ecompanied by Louis Cuvreau and

accompanied by Louis Cuvreau and Charles Blanc, who first reached the girl's dead body with Flynn shortly after the drowning.

'We took the water's depth about the same hour Miss Cuvreau met her death," said Woods. "Flynn had said his boat was about two blocks from shore when the accident occurred. At just that distance we found that the water was only about two or two and a

HAVE NARROW ESCAPE. St. John, N. B., Aug. 11.—Miss Gladys Brydone-Jack, of Vancouver, daughter of Dr. E. Brydone-Jack, and Marlon Milledge, a well-known society siri of this city, had a terrible experience on the Kennehecasis river near here while yachting during heavy squalis yesterday afternoon. Dr. Brydone-Jack and family are summeria on the Kennehecasis, and the girls started in a small yacht to sail around the island. When in the middle of the river a squall struck the boat, overturning it. The girls were thrown into the water, but being good swimmers climbed on the boat and for two hours they clung to the boat, while people on shore watched. Finally they were rescued after great difficulty and in an exhausted condition.

MARSH WON IN MARATHON RACE

ROWAN PUT UP GOOD FIGHT AGAINST HIM

nteresting Long Distance Trial at Royal Athletic

The first Marathon race to be seen this city was held last evening at Royal Athletic Park, when John D. Marsh, of Winnipeg, the holder of the world's record for the full Mars-thon distance, defeated Alex, Rowan, a Nanaimo lad, in a 15-mile race. There was a good crowd out to wit's ness the race, 700 having paid admis-sion at the cate.

ness the race, 709 having paid admission at the gate.

The track, which was a grassy one, measured four laps to the mile, and was in good shape. Marsh's time for the distance was 1.25:26, which is 3.04 slower than the world's record.

After the runners had been introduced, Fred Meadows, of Guelph, Ont. challenged the winner to a race at any distance. At 6.45 o'clock the runners challenged the winner to a race at any distance. At 6.45 o'clock the runners lined up, and Frank Baylis, who acted as starter, sent them away. The two started off with a sprist and kept a good pace for the first lap. Rowan made the time for the first mile, which was 5.7. Rowan also was leading at the end of the second mile, and his time for the second mile, and his the start of the third mile the start of the third mile the two joined in a sprint the length of the track. The three miles were covered in the fast time of 18 minutes flat. Rowan leading. Marsh then took a lead, and covered the first four miles in 21:25 and the five miles in 27 flat. It was on the seventh mile that the runners hit their hardest pace. Rowan was leading and Marsh attempted to pass him. The two raced at top-noteh speed for about 200 yards, neither gaining on the other. The seven miles were completed in 38:40, Marsh mak-

ing the time.
It was then in the eighth mile that water was only about two or two and a half feet deep. We had tide tables, and Sunday's depth at that hour should have been about the same as on the date of the accident. We also measured the water about four blocks from shore, two blocks further than Flynn indicated. At that distance we found miles was 44:16, and he kept the pace shore, two blocks further than Flynn indicated. At that distance we found the water only about four feet deep. I can't see how any person could have been drowned, under the circumstances, at either point."

Asked what the result of the investigation would be, Woods said:

"Nothing. We haven't the necessary evidence against Flynn to take any of the twelfth mile was nearly on Rowan's heels. The time was 1,7:10. of the twelfth mile was nearly on Rowan's heels. The time was 1.7:10. Marsh then took the lead, and gradu-Marsh then took the lead, and gradually opened up a lead. His time for the thirteen miles was 1.12:50, and for fourteen miles 1.18:25. It was in the second lap of the fourteenth mile that Marsh lapped Rowan. The two then raced the remainder of the distance of the last was of the last. raced the remainder of the distance together until the last turn of the last

lap, when the two commenced to sprint. Marsh had a little the best of it, but it wasn't much. Rowan then completed his last lap alone.

It was noticed that Marsh, who is an old man in the game, ran with a stride old man in the game, ran with a stride which never changed except in a sprint. On the other hand. Rowan, who is only in his twentieth year and a young one in the game, did not keep a steady pace and ran some unnecessary sprints. Rowan, however, will learn from experience. He said last evening that he was determined he would beat Marsh in the Marathon race to be held in Vancouver some time this month, in which some twenty competitors will figure.

terests, but while she felt it both a pleasure and a privilege to be present, she sympathized with the nurses who had been on duty all day, too much to impose on their good nature by speaking to them at any length. As a rule, nurses were not treated with sufficient consideration by hospitals and doctors, in being asked to attend lectures when they were tired. What working man would take kindly to a lecture, given for his benefit, if he had been working hard for thirteen hours, and yet that was what was expected of nurses in training.

LET US FIGURE ON SOME NEW WINDOW SHADES

LET us estimate on the cost of new shades for your new house or new ones to replace the worn out blinds on your present home. There is no cost to you for such estimate—no obligation to purchase incurred. We offer you a splendid assortment of materials from which to choose, showing Opaques, Scotch Hollands, Lancasters, etc. From these it is an easy matter to choose a color and style to suit. Our opaques are the best hand made and must not be confused with the cheaper machine made materials. The Scotch Hollands are decidedly attractive in appearance, particularly a cream Holland with raised stripe of same shade. Nothing but the best Hartshorn rollers used. We import these materials direct in large quantities and can quote you interesting prices on window shade work. Experienced men do the

examination. The nurses should have a law prohibiting that sort of thing, both for the protection of themselves and for the benefit of the public. As the case stood at present, any woman could don a nurse's uniform and draw a nurse's pay, if those who employed ther did not take the trouble to demand her credentials. Such a woman could not possibly fulfill the duties of a trained nurse, and by pretending to do so she brought the profession into disrepute and endangered the lives of those intrusted to her care. Dr. McMurchy said she felt sure that if the nurses as a body were properly organized and brought the matter before the government a bill could be passed.
